

## **Daily Update**

April 27

### **Geological Work**

#### Devil's Slide (post mile 39.14)

- Drilling operations to install inclinometers continues. Drilling conditions are particularly difficult in the slide area. Weekend work is scheduled.
- Various concepts for the repair design are under consideration at this time by a team of Geologists, Structures Engineers, and Construction Engineers.

#### Slide at Post Mile 39.77

- Work continues to develop the repair design.

### **Repair Work**

#### Slide at Post Mile 40

- Work continues to rebuild the hillside. The rock foundation base is complete, and the hillside is being rebuilt using alternate layers of special 'geotech' fabric and backfill. This technique is known as 'geogrid embankment construction'.

### **Traffic Issues**

- Caltrans will install information and directional signs for two temporary park and ride lots. One is at Pillar Point Harbor and the other behind Safeway in Half Moon Bay. Follow the signs on Highway 1 to both lots.
- Additional signs informing motorists that the road at Devil's Slide is closed are planned.
- Additional signs will be installed informing motorists that businesses in Montara and Half Moon Bay are open.
